

ART & ENDOMETRIOSIS: TIPS AND TRICKS

A practical course for gynecologists and fertility specialists

COURSE DIRECTORS

- Professor Anis Feki
- Professor Renato Seracchioli (Head of Reproductive Medicine, University of Bologna)
- Professor Paola Viganò

COURSE OVERVIEW

This high-level, focused course is designed for gynecologists and fertility specialists seeking the latest insights, strategies, and clinical refinements for managing patients with **endometriosis and adenomyosis** undergoing Assisted Reproductive Technology (ART). The session will cover diagnostic workup, personalised medication protocols, controlled ovarian stimulation, ovulation induction in poor responders, egg freezing strategies, and best practices for embryo transfer.

TARGET AUDIENCE

- Reproductive endocrinologists
 - ART practitioners
 - Fertility fellows
 - Gynecologists with interest in reproductive surgery and endometriosis
-
