

**Thursday,
23rd of April**

**THE PERFECT MATCH
(full day)**

EEL, ISUOG AND ESGE COURSE

**ENDO|ANATOMY
(morning)**

**LIVE CADAVERIC DISSECTION
LAPAROSCOPIC AND ROBOTIC (4 HOURS)**

**ENDO|TACTICS
(afternoon)**

**CHALLENGING CASES AND COMPLICATIONS:
STRATEGIES FOR APPROACH (4 HOURS)**

**ART IN ENDOMETRIOSIS
PATIENTS
(morning)**

**PRACTICAL TIPS AND TRICKS FOR
FERTILITY SPECIALISTS (4 HOURS)**

**ENDO|PAIN
(afternoon)**

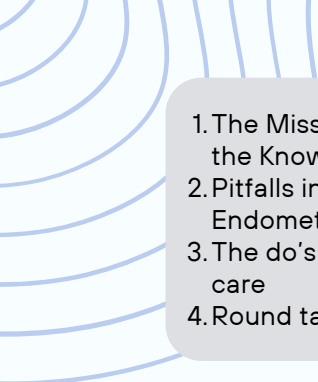

**PAIN AND ENDOMETRIOSIS: WE NEED TO
UNDERSTAND MORE
NON-SURGICAL MANAGEMENT OF
ENDOMETRIOSIS (4 HOURS)**

SPECIALIST NURSES

**FOCUS ON THE IMPORTANT ROLE OF
ENDOMETRIOSIS SPECIALIST NURSE (4 HOURS)**

PROGRAM

- 
1. The Misleading Information in Endometriosis: Bridging the Knowledge Gap
 2. Pitfalls in the Management of Deep Infiltrating Endometriosis
 3. The do's and Don'ts in endometriosis related infertility care
 4. Round table discussions

THE DO'S AND DON'TS IN ENDOMETRIOSIS CARE

(60 MINS)

1. Endometriosis Through the Eyes of the Pathologist
2. Building organoids for personalized diagnostics and treatments/Endometriosis on a chip
3. Stem Cell Role in Reproduction: between Haste and Hype !
4. Anti-angiogenesis therapy for adenomyosis
5. Resveratrol - mechanism of action for complementary medicine
6. Round table discussions

BEYOND THE CLINICAL PRACTICE

(90 MINS)

1. Refining the role of surgery for deep infiltrating endometriosis in infertile women
2. AMH levels in superficial and deep infiltrating endometriosis
3. Ovarian endometriosis in patients with fertility desires (evidence and proposed algorithm?)
4. Endometriosis-Associated Ovarian Damage: DNA Double-Strand Breaks and Oocyte Apoptosis in the Primordial Pool
5. Towards global guidelines in management of endometriosis and infertility
6. Round table discussions

INFERTILITY AND ENDOMETRIOSIS: UP TO DATE

(90 MINS)

1. Unveiling the Microbiome: Hidden Players in Endometriosis
2. Evaluating the Impact of Exercise and Pelvic Floor Rehabilitation on Pelvic Pain in Endometriosis Patients
3. Psychological Interventions for Endometriosis: When to Start, How to Deliver Them, and for How Long
4. Managing Endometriosis: The Emerging Role of Diet in Multidisciplinary Treatment
5. Interventional pain management in pelvic pain
6. New Frontiers in the Early Diagnosis of Endometriosis/genetics
7. EEL-EFI Survey on MUSA criteria for adenomyosis
8. Round table discussions

ENDOMETRIOSIS 360°

(120 MINS)

FRIDAY,

24TH OF APRIL

ENDOMETRIOSIS IN DIFFERENT AGES: THE LONG JOURNEY

(120 MINS)

1. Ovarian Endometriosis on Ultrasound: Age-Related Changes from Fertility to Menopausal Transition
2. Adolescent Endometriosis & Adenomyosis
3. Young patients with adenomyosis: at risk of under- or overdiagnosis?
4. Hormonal Therapies in Reproductive Medicine for Women with Endometriosis: Balancing Clinical Efficacy and Adverse Events
5. Does Endometriosis Increase Pregnancy-Related Risks?
6. Menopause in Endometriosis: Patterns, Age of Onset and Clinical Implications
7. Cancer Risk in Endometriosis
8. Round table discussions

EXPERT INSIGHTS : BEYOND THE GUIDELINES

(60 MINS)

ROUND TABLE DISCUSSION: MEET THE EXPERT

FROM ULTRASOUND TO SURGERY

OR 1
BOLOGNA

OR 2
BOLOGNA

OR 3
ROBOTIC

OR
LAPAROSCOPIC ABROAD

180
MINS

MORNING

150
MINS

AFTERNOON

ORAL PRESENTATIONS:
BEST SUBMITTED ABSTRACTS (60 MIN)

VIDEOS PRESENTATIONS:
BEST SUBMITTED ABSTRACTS (60 MIN)

ORAL PRESENTATIONS:
BEST SUBMITTED ABSTRACTS (60 MIN)

VIDEOS PRESENTATIONS:
BEST SUBMITTED ABSTRACTS (60 MIN)

ORAL PRESENTATIONS:
BEST SUBMITTED ABSTRACTS (60 MIN)

PATIENT'S ADVOCACY MEETING

OPENING CEREMONY, AWARDS & GALA DINNER

SATURDAY, 25TH OF APRIL

1. The natural course of endometriosis: progressive, regressive or stationary ?
2. Non-excisional surgery for ovarian endometriosis: what is the current evidence
3. Peritoneal endometriosis: ultrasound and laparoscopic diagnosis
4. Adenomyosis Pathophysiology
5. Uterine-conservative management for adenomyosis: what is the updated evidence?
6. Round table discussions

ENDOMETRIOSIS: BURNING QUESTIONS

(90 MINS)

1. Endometriosis care in Europe: where do we stand?
2. Common Goals for Improving Patient Care – Comprehensive Survey Results: Perspectives of Physicians, Patients, and Policymakers
3. Endometriosis Network: The Bologna experience
4. Building Bridges: How Patients, Clinicians, and Policymakers Can Redesign Endometriosis Care Together
5. Round table discussions

CONSENSUS MEETING: SHAPING PRIORITIES FOR ENDO CARE

(90 MINS)

1. The history of endometriosis and surgical treatment
2. The Neural Map to Pelvic Pain and symptoms
3. Clinical examination in Neuropelveology: Mapping the Pelvic Nerves for diagnostics
4. When not to operate, and what other options do we have?
5. Vascular entrapment of somatic pelvic nerves
6. Round table discussions

ENDOMETRIOSIS: HOW SILENT ANATOMY CAN SPEAK

(90 MINS)

**YOUNG PRESENTERS EEL AND ETIC SESSION:
BEST SUBMITTED ABSTRACTS FROM RESIDENTS AND YOUNG RESEARCHERS (90MIN)**

EEL ASSEMBLY & CLOSING SESSION
